PRODUCT OVERVIEW

Five apps for **your school.**

Every app runs in the browser, several also on Windows, macOS and Android. Each one includes tools for teachers. Scan a code to open the app.

TYPITRAIN — TYPING TRAINER

Adaptive typing practice for every student. Assign exercises or your own texts with due dates, and see per-key progress for each class.

WEB **typitrain.com** DESKTOP **typitrain.com/en/download**

KANTONA — MUSIC THEORY AND READING

Music theory lessons, note reading, ear and rhythm drills, and pieces to play. Assign any of them, or a whole drill program, and see each student's results.

WEB **kantona.steadygo.app** DESKTOP **kantona.steadygo.app/en/download**

KOMPRENO — AI LANGUAGE TUTOR

AI tutor for 19 languages, A1 to C1: conversations, stories, grammar and vocabulary. Assign generated practice, stories or your own materials, and track speaking time and pronunciation.

WEB **kompreno.steadygo.app** DESKTOP **kompreno.steadygo.app/en/download** ANDROID **Google Play**

GODWANA — INTERACTIVE ATLAS

Interactive atlas with a 48-unit curriculum, data layers and map quizzes. Write your own quizzes and lessons, assign them to classes, and see accuracy and weak areas.

WEB **godwana.steadygo.app**

WHEEE! — SCHOOL TRIPS

Plan class trips with colleagues on one map with routes and travel times. Students and parents get the itinerary as a PDF.

WEB **wheee.steadygo.app** ANDROID **Google Play**
